

Innovative technology with seamless integration.

Remote D Tech

by SensorTech

Remote D Tech is a cellular remote transmitter with a binary sensor capability to reflect an open or short condition. Applicable for primary or redundant alarm notifications.

Remote D Tech connects to:

- RELAYS/DRY CONTACTS
- FLOATS
- LIMIT SWITCHES
- PRESSURE MATS
- METAL PLATES
- VARIOUS OTHER DEVICES

Remote D Tech can provide numerous answers:

- IS THE POWER ON?
- IS THE EQUIPMENT FUNCTIONING?
- IS THE DOOR LOCKED?
- IS THE WATER LEVEL BELOW 2 FEET?

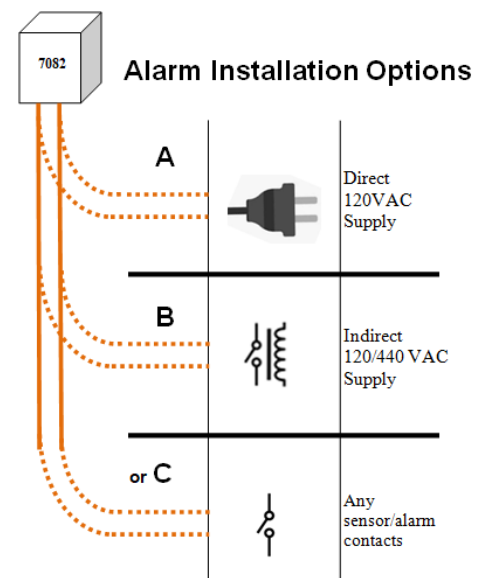

Ask a Yes or No question, and Remote D Tech will answer, day or night, within seconds.

Includes 120 VAC Detection On/Off Reporting.

Remote D Tech is self-contained, battery-powered, and ready-to-use, right out of the box. Hook its wires to any set of dry contacts, and access your data through the D Tech by SensorTech Web App.

Enter your email, cell phone number and the question you need answered and you are ready to go.

Set alerts for up to 10 total users.
