

Innovative technology with seamless integration.

Temp D Tech

by SensorTech

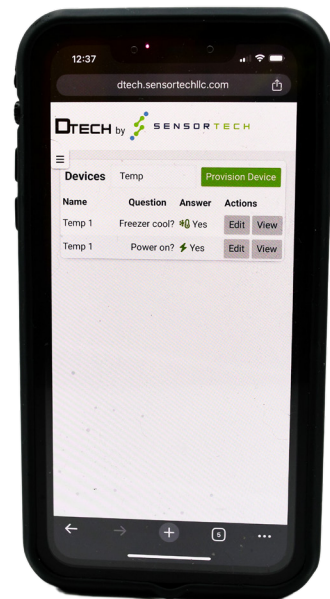

Temp D Tech monitors both the temperature and power of freezers, coolers, data processing centers, server rooms, electronic cabinets, along with various other environments, and remains inactive until temperature levels go above or below the desired alarm level, i.e. 45 degrees, or power changes state; it alerts the user via their preferred method of email or text.

Temp D Tech's web-based user interface provides notifications, monitors the unit's health, and can monitor multiple units at various locations. With the D Tech by SensorTech Web App, you can control every one of your Temp D Techs: Add/remove users and alerts, change alert messages, daily updates, and display report history.

Temp D Tech provides multiple notifications:

- TEMPERATURE ALARM
- POWER CHANGE
- LOW BATTERY

NOTE: The device requires 15-30 seconds below user set alarm level to activate and send a notification
Includes 120 VAC Detection On/Off Reporting.

SensorTech Controller

Temp Alarm with Display

PARAMETER	VALUE	ALARM CHANNELS	1
CARRIER	Verizon, AT&T, T-Mobile 4G compatibility and others.. (Any 4G LTE CAT M1 or NB1)	ALARM ADJUSTMENT RANGE	-40 °F to 160 °F (-40 °C to 71 °C)
INDICATORS	2 LEDs Red & Green	PROBE	Encapsulated sensor with 6 ft cord
REPLACEABLE BATTERY	3.6 volt battery with booster SensorTech PN: BATT3.6V-BHPC	SENSOR TYPE	Thermistor
BATTERY LIFE	Over 700 updates (2 years at 1 report per day)	MAXIMUM PROBE EXTENSION	200 Feet
TEMPERATURE	-40F to 140F (-40C to 60C)	TEMPERATURE ACCURACY (DISPLAY):	± 2 °F (± 1 °C)
WARRANTY	1 year (not including battery)	REMOTE ALARM CONNECTIONS	Screw type, 120 VAC, 5 Amp max.
DIMENSIONS	4.5" X 2.5" X 1.3"	POWER	120 / 240 VAC
		CASE	Hi-impact thermoplastic
		MOUNTING	Surface, external holes provided
		PROBE LENGTH	80 inches
EXTERNAL CASE: 4.3"D X 6.7"W X 8.7"H AND IP67. * DIMENSIONS MAY VARY			

SensorTech has teamed its cellular technology with a leading manufacturer of digital temperature alarms to offer Temp D Tech. The temperature alarm with display is AC powered offering constant power and local alarm capability. SensorTech's cellular controller is connected directly into the temperature alarm to allow remote alarm alert notification. Temp D Tech's controller is battery-powered and ready-to-use, right out of the box. Access your data through the D Tech by SensorTech Web App.

Enter your email and cell phone number, into D Tech by SensorTech Web App and you are ready to go. Set alerts for up to 10 total users. Annual cellular plan is required.

Applications:

- Freezers
- Coolers
- Data Processing Centers
- Server Rooms
- Electronic Cabinets
