

Innovative technology with seamless integration.

The Stack

LEVEL DEVIL by SensorTech

Wireless Remote Tank Monitoring System

Highly versatile & interchangeable.

Model 9175

The Stack is a modular system made up of three or four modules that work together to monitor the product activity within a tank. These units are highly versatile and interchangeable. There are a number of different options for communication, power, and sensor that are integrated to allow for a high level of flexibility.

→ MONITORS: DIESEL, GASOLINE, SOLVENTS, HERBICIDES, PESTICIDES, WATER, OIL, AUTOMOTIVE FLUIDS, ACIDS, CAUSTIC SODA AND MUCH MORE!

Improved Safety

Fewer employees needed to climb tanks

Power Options

Solar Powered, AC Powered or Battery Powered

Online Data

Allows monitoring from anywhere in the world

The Stack reports the current level of a tank automatically under field programmable conditions and can monitor virtually any type of liquid stored within a tank.

The Stack

LEVEL DEVIL by SensorTech

TM

INTERNAL MONITORING SENSORS	Temperature, and (optional) GPS position.
CASE SIZE	5.8 inch diam. x 2.7 inches (plus optional sensor base)
CASE MATERIAL	PVC, UV stabilized
ALARMS	10 programmable set points: Low or high limits
LARGE-PERCENT-CHANGE (LOAD) DETECTION (USER-DEFINED)	Programmable auto-send upon a user-defined percent change ("load detection")
PRT- PSEUDO REAL TIME REPORTING	Programmable. 2% minimum
SENSOR EXCITATION	5 Volts
RESOLUTION	4095 counts (12-bits)
LED INDICATORS	Red, Green and Yellow LEDs on PCB, to signal unit status, White LED for radio status.
CONTROL SWITCH	1 Push-button switch on PCB
CELLULAR MODE	4G/LTE Cat M1
WARRANTY	1 year. See Sensortech standard warranty statement
NOTES: Cel-Tel & Tank-Tel are registered trade names of Chart/MVE.	
SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE	

- Secure web screens visible by authorized client from any computer or smart phone.
- Client can allow selective password access by others.
- Smart phone app available.
- Automated voice phone calls.
- High/Low Alarms/Indications.
- Sudden-Change Notification.
- History data & graphs.
- Sort & Filter data by Item, Date, Status, etc.
- User-defined configuration & settings.
